The Cheorwon International Peace Conference was held prior to APAY's General Assembly from September 4 to 6, 2015, at the Border Peace School (BPS) in the demilitarized zone, or DMZ, separating North and South Korea. This pre-assembly program offered the 70 participants from 10 countries and regions, including Peter Posner, president of the World Alliance of YMCAs (WAY), an opportunity to learn about the experiences of war and separation of the Korean people for the past 70 years and the links between achieving peace on the Korean Peninsula and attaining peace elsewhere in the region and the world. Among the participants' recommendations was for APAY to make peace between North and South Korea and the reunification of the nation a priority agenda during the next quadrennial and to initiate a series of

peace programs in the next four years.

Another pre-Assembly event that took place in Daejeon from 5-7 September 2015 was the GATN Program Managers Training. About 20 participants from 11 countries participated in this event. This Workshop is part of a series of programs planned to provide further training for Program Managers from YMCAs that were offering alternative tourism programs and those who were planning to host such alternative tourism programs. This training focused on Community Based Tourism and Service Learning, which are two very important aspects of Alternative Tourism.

The General Assembly also presented a great opportunity to promote GATN as well as the many varieties of Alternative Tourism sites within our APAY region. At the GATN Marketplace, YMCAs from 9 countries exhibited their Alternative Tourism programs. The hosting YMCAs exhibited photos and banners, and distributed brochures and souvenirs to promote the different activities and programs being offered by their Alternative Tourism packages. Some enterprising YMCAs were also able to raise funds for their community programs by selling products and crafts made by their local communities.

The 19th General Assembly was a melting pot of various ideas and concerns which are being faced by the YMCA in our region, represented by the YMCA leaders both lay and professionals. We spent our time in search of answers and solutions, how the YMCAs should respond to these issues in the next four years. All these proposals shall be concretized during the Round Table Meeting of APAY scheduled to be held during the first week of December 2015 participated by the YMCA leaders of our region.

We also thank the host YMCAs, the National Council of YMCAs of Korea, the YMCA of Daejeon, all the lay and professional leaders for taking all the pain to host this successful YMCA event.

We keep ourselves busy in actualizing our hopes and aspirations during the next four years in our YMCAs until we meet again at the 20th General Assembly of APAY.
